

When everything fits, it shows

Imagine having only one system where everything fits.

PharmAcademic™ is an *integrated* system that combines curricular outcomes management and mapping, on-line assessment, experiential training management and PharmPortfolio™ for students and faculty on one common platform. PharmAcademic is designed exclusively for colleges and schools of pharmacy to help improve your operations and facilitate meeting accreditation requirements.

Benefits

- Single integrated system to use
- Mapping of your curricular to standards, courses and rotations
- Assessments to help you measure effectiveness of teaching
- Integrated electronic portfolios for students and faculty
- Experiential training management for managing rotations, preceptors and student scheduling

PharmAcademic and PharmPortfolio will be available Fall 2009. Contact us to set up an on-line demonstration of PharmAcademic for your college or school of pharmacy.

PharmAcademic Features

Curricular Outcomes

- Document and maintain your current and historical curricular outcomes
- Add specific actionable criteria to your outcomes
- Map outcomes to CAPE and NAPLEX

Curricular Mapping

- Map outcomes to courses to help assess where your outcomes are being taught
- Map outcomes to the experiential training curriculum
- Preserve historical curricula

Course Management

- Define and maintain courses
- Map courses to ACPE's Science Foundation of the Curriculum and any site-defined keywords
- Manage course sections and student enrollment
- Search the on-line course catalog

Assessment

- Build assessments with individual questions, rubrics, and checklists
- Map assessment questions to curricular outcomes to assess effectiveness of education
- Schedule faculty and course assessments for each course and experiential training rotation
- Schedule evaluations for electronic delivery
- Complete evaluations online

Experiential Training

- Manage rotations and preceptors for IPPE and APPE
- Provide online descriptions of rotations
- Collect preceptor availability and student rotation rankings online
- Schedule students for rotations one at a time or utilize the match engine

PharmPortfolio

- Provide students and staff with electronic portfolios that support pharmacy education, residency, employment, continuous professional development, and personal development, and that integrate seamlessly with PharmAcademic
- Teaching portfolio for faculty
- Users link evidence toward their education and professional goals
- Users reflect on their goals, evidence, and courses
- Users submit evidence for jury review
- Students and faculty build views of the portfolio, filtering and configuring the information from PharmAcademic and other sources for their specific audiences

Reporting

- Utilize built-in reports to assist with curricular outcomes and mapping, assessment, and experiential training
- Create custom reports using the flexible report writer
