**McCreadie Group, Inc. Receives SOC 2 Type 1 Compliance
from CyberGuard Compliance**

Ann Arbor-based pharmacy software solutions company completes the SOC 2 Type 1 audit and receives attestation. Such compliance provides clients an increased level of confidence in McCreadie Group's security controls and data protections.

OCT. 10, 2017 – ANN ARBOR, MI - McCreadie Group, Inc., a privately held pharmacy software solutions provider headquartered in Ann Arbor, Michigan, is pleased to announce it has achieved SOC 2 Type 1 compliance after going through the auditing process. SOC 2 attestations center on the controls at service organizations and focus on the Trust Service Principles.

“Achieving the SOC 2 Type 1 attestation confirms our ongoing commitment to providing the highest level of protection for our clients’ data. Security has always been a top priority for us, which is why our organization is also compliant with the HIPAA Security Standard, as well as the FERPA and 21 CFR Part 11 standards. We are in the process of working toward the SOC 2 Type 2 compliance right now,” said Elena Stegemann, Chief Operations Officer at McCreadie Group.

“Achieving this attestation demonstrates our focus on providing innovative solutions that meet the highest standards of robustness and quality,” states Scott McCreadie, Founder and CEO at McCreadie Group. McCreadie Group has been transforming the way research pharmacies, residency programs, and pharmacy education run daily operations for over a decade with web-based software solutions that automate manual processes, improve efficiency, and simplify and ensure compliance with industry standards. “This achievement increases our clients’ confidence in our solutions, as transparency and cybersecurity are becoming increasingly important,” said Mr. McCreadie.

About McCreadie Group

The McCreadie Group, Inc. was founded in 2004 to provide software solutions for pharmacy applications in healthcare, research and educational settings. McCreadie Group’s goal is to drive improvements in quality, efficiency, safety and compliance in the pharmacy profession by delivering innovative software and consultative support.
