**McCreadie Group Expands Research Pharmacy Team with Hires from
Leading Research Institutions.**

Ann Arbor-based pharmacy software solutions company expands its staff to support the growing research pharmacy business unit, further deepening its Investigational Drug Service (IDS) expertise.

January 22, 2019 – ANN ARBOR, MI - McCreadie Group, Inc., a privately held pharmacy software solutions provider headquartered in Ann Arbor, Michigan, is pleased to announce the hire of Richard (Rick) Malone, Pharm.D., MHA, from Vanderbilt University to the position of Business Development Executive and Rachael Aletti, Pharm.D., from New York Presbyterian to the position of Senior Account Manager. Both positions have been created to support the growing research pharmacy division at McCreadie Group.

Malone will focus on further growing and expanding McCreadie Group’s research product division identifying new business opportunities. Malone is a licensed pharmacist with over 24 years of clinical, operational, and administrative experience. He has worked in non-profit and corporate settings in various roles ranging from Critical Care Clinical Specialist to CEO. He spent eight years as Program Director for the Investigational Drug Service at Vanderbilt University Medical Center prior to joining McCreadie Group.

Aletti’s focus will be serving our research pharmacy clients, helping them optimize their use of Vestigo and identifying market needs to inform future software development. Aletti is a licensed pharmacist with over 10 years of experience in both community and hospital settings. She has served as an investigational drug pharmacist at two major academic medical centers. She earned her Pharm.D. from the Massachusetts College of Pharmacy and completed a pharmacy practice residency at Montefiore Medical Center in New York prior to joining McCreadie Group.

“We’re thrilled to have Rick and Rachael join our growing company. Their IDS expertise will bring additional experience to our already strong research division and help position us for the next stage of growth and innovation in the research pharmacy market,” stated Elena Stegemann, COO.

About McCreadie Group

The McCreadie Group, Inc. was founded in 2004 to provide software solutions for pharmacy applications in healthcare, research and educational settings. McCreadie Group’s goal is to drive improvements in quality, efficiency, safety and compliance in the pharmacy profession by delivering innovative software and consultative support.
