

Vestigo[®]

CONSULTING SERVICES

Vestigo Consulting Services is available for IDS teams who would like additional guidance or assistance. Our team has decades of experience in IDS management and is ready to share their expertise via an optimization visit or personalized training, or we can assist by completing essential data management tasks for you.

OPTIMIZATION

With an optimization visit, we will review your current processes and make suggestions to improve safety, efficiency, and compliance. Our team will provide guidance and demonstrate how Vestigo can support best practices. Areas of focus include:

Protocol Billing Management: streamline your billing workflow

Vestigo Functionality: expand your use of Vestigo by implementing under/unused functionality

Protocol Document Management: become paper-lite using Vestigo's storage capabilities

TRAINING

Our team can provide targeted, personalized training on key Vestigo functionality. We will develop a curriculum and conduct in-person or virtual classes tailored specifically to meet your team's needs.

DATA MANAGEMENT

Consulting Services can be an extra resource for IDS teams when they are in need of more time and/or expertise. We can assist in building new protocols in Vestigo or update previously added protocols.
