

CENTRALIZED MONITORING MANAGEMENT WITH VESTIGO VERIFY CENTRAL

The Vestigo Solution Closes the Gap with Up-to-Date Reporting

Vestigo

For IDS Pharmacies

Automates IDS operations: protocol management, inventory, dispensing, billing, reporting, etc. Allows IDS sites to schedule monitor visits.

Vestigo Verify

For Study Monitors

Provides access to data captured in Vestigo: inventory, accountability logs, and protocol documents. Monitors can request visits, generate accountability records, document IP disposition transaction reviews, create visit notes, and resolve action items.

Vestigo Verify Central

For CROs

Creates dashboard to review inventory levels, monitor visit schedules, visit notes, and action items recorded in Vestigo Verify. Details below...

Let Us Show You How Vestigo Verify Central Can Help You!

The Vestigo Solution allows CROs to leverage monitoring information captured in Vestigo Verify:

- Quickly view data from monitoring activities for a specific protocol across all Vestigo Sites.
- Review schedules, add monitors, or request monitor assignment changes to streamline visits.
- Track inventory using an easy-to-use snapshot of inventory levels.
- Drill down to read details of visit notes and see how action items were resolved.
- Improve clinical site satisfaction and efficiency with a streamlined monitoring process.
