

IRT/RTMS INTEGRATIONS

The Central Hub for Interacting & Interfacing with IRT Systems to Improve Study Data Integrity and Accelerate Data Capture

Vestigo is the Industry Standard in Automating IDS Operations

Our solutions help clinical research sites manage tens of thousands of protocols and millions of transactions in the IP supply chain utilizing a single, consistent workflow.

Vestigo + IRT/RTMS System = ↑ Data Integrity, Consistency, and Efficiency

- Seamless data validation and documentation of key transactions related to IP disposition, including shipment receipts, dispenses, returns, and destructions.
- Automated flow of data between sites and IRT systems.
- A reduction in data entry at the study site, improving efficiency of the pharmacy team and reducing the risk of protocol deviations.

Let Us Show You How We Can Help!

- Improve data integrity with transparent validation.
- Create consistent data format and superior drug accountability records.
- Reduce protocol deviations.
- Improve monitoring efficiency and transparency.
- Increase visibility of IP inventory levels and disposition.
- Accelerate data capture and close.
- Reduce costs.
- Increase site satisfaction by reducing duplication of work.
